

HORSTMAN DEFENCE SYSTEMS LIMITED JOB DESCRIPTION

ASSEMBLY & TEST OPERATIVE

BASIC FUNCTION

To complete the mechanical assembly and testing of components, sub-assemblies and assemblies for a wide range of high value, low volume assemblies.

REPORTING RELATIONSHIP

Reports to the Manufacturing Cell Leader - Assembly, Integration, Test and Paint.

RESPONSIBLE FOR

The assembly and test of components, sub-assemblies and assemblies for high value hydro-pneumatic suspension systems.

DUTIES & RESPONSIBILITIES

- 1) Perform diverse assembly operations to complete a wide range of high value, low volume assemblies.
- 2) Complete the function test of a wide range of high value, low volume, hydro-pneumatic suspension systems
- 3) Complete the proof test of components used in high pressure hydraulic systems.
- 4) Liaise with the Manufacturing Cell leader to determine daily production requirements.
- 5) Ensure work instructions are adhered to at all times and that all Quality requirements are met.
- 6) Ensure Health and Safety procedures are adhered to at all times
- 7) Support continuous improvements activities from within the Assembly and Test manufacturing cell.
- 8) Work with and support multi-disciplined teams in the introduction of new products and production processes into full manufacture.
- 9) Maintain a high standard of housekeeping and cleanliness in the assembly and associated test areas
- 10) Undertake additional duties and support special projects as and when required.

KNOWLEDGE & ABILITY REQUIRED

- 1) Time served assembly fitter with a minimum 5 years' experience in a high value, low volume mechanical manufacturing, assembly and test environment.
- 2) Experience of working on large intricate assemblies.
- 3) The ability to test hydro-pneumatic systems.
- 4) The ability to use standard measuring equipment such as micrometers, verniers, etc.
- 5) The ability to interpret engineering drawings and specifications
- 6) Computer literate
- 7) Good communicator
